

THE GREYSTONE

February 2015

Message from the Indoor Coordinator:

Hi Greystone Heights, I am the new indoor coordinator for the Greystone Community Association and I need your help. If there are programs you would like to see run in the fall, please let me know. As well, if you would like to share your passion with others by means of instructing a program, let me know that as well. Please email me at consis@sasktel.net. My goal is to provide quality indoor programs for the community and I would really appreciate your input.

Spring registration, for yoga and outdoor soccer will be over two nights February 23, 6-7pm and February 25 5:45-6:45. See you then.

Also, there is an upcoming public input meeting for a neighbourhood traffic review to be held in May. More details on that meeting to follow.

Soccer Report:

A big thanks to coaches **Darren Frey, Trevor Conquorgood, and Neil Gillot** for coaching during the indoor season! As indoor soccer winds up outdoor registration begins in Feb. The GCA will register players in the community U6, U8 and U10 leagues. It can get confusing so make sure you know where you want to register your child. It is anticipated that the Eastside soccer zone will run the U8 and U10 developmental league so please ensure if your child wishes to play in this league that you register directly with Eastside (this is a new league that began in the 2014/15 indoor season). I would expect updates to soon be available on the developmental league at : <http://eastsidesoccer.ca/>

Thank you, Thank you, Thank you, Thank you, Thank you, Thank you, Thank you

Rink Update – January 2015

The rink has been busy all season long. We've enjoyed a few warm spells that are great for getting outside, but a nightmare for the ice. We've managed to keep the ice and slush cleared to minimize ice lumping/bumps. Thanks to our volunteers who have been busy shoveling, clearing snow and readying the rink since November:

Our usual public skating hours are:

**Tuesdays and Thursdays – 7pm to 9pm, and
Sunday – 2pm to 4pm**

We are in the process of prototyping a mini zamboni system. Right now it is a work in progress and we hope to have something ready to experiment with in February! Thanks to Darren Frey for spearheading this project.
